

THRESHOLD CONCEPTS

CinemaX TREME MULTI-MEDIA STATION

NO PC REQUIRED

Digital Video / Photo / Music Player

7-in-1 Memory Card Reader

MediaVault Portable USB 2.5" HDD Enclosure

Easy-to-Use On-Screen Interface

Infrared Remote Control Included

Bundled with Cyberlink PowerDirector 3XE

The **CinemaXtreme Multi-Media Station** is a video, photo, and music player that functions without the use of a computer! It has a 7-in-1 memory card reader built in and a slot for the **MediaVault**, a portable USB 2.5" HDD enclosure. Best of all, all you need is the infrared remote control included with the **CinemaXtreme** and a TV or a display device to start sharing your photos, video or music with your family & friends!

VIDEOS & MOVIES

- CinemaXtreme allows you to store and view hundreds of your favorite home videos & movies directly from the MediaVault.
- Store & share your videos & movies by connecting MediaVault to a PC or inserting it into another CinemaXtreme Multi-Media Station.

PHOTOS

- View photos taken with your digital camera(s) or camcorder(s) on TV. Simply insert your memory card(s) into the CinemaXtreme.
- Share thousands of photo albums & photo slide shows with family & friends with MediaVault's high capacity 2.5" HDD.

MUSIC

- Play your favorite MP3 music files directly from the MediaVault or from any of the supported memory cards.
- Play your favorite MP3 songs while viewing photo slide show with the unique Music Slide Show feature.
